

# Monthly Indicators

## January 2025

U.S. existing-home sales advanced for the third straight month, climbing 2.2% to a seasonally adjusted annual rate of 4.24 million units, a 10-month high, according to the National Association of REALTORS® (NAR). Sales were up 9.3% year-over-year, driven largely by purchases of homes priced \$500,000 and above. Month-over-month, sales rose in the South, Northeast, and the West but fell in the Midwest, with all four regions reporting year-over-year gains.

New Listings were up 0.5 percent to 9,125. Pending Sales decreased 4.9 percent to 6,520. Inventory shrank 3.2 percent to 22,876 units.

Prices moved higher as the Median Sales Price was up 6.3 percent to \$425,000. Days on Market decreased 1.8 percent to 54 days. Months Supply of Inventory remained flat at 2.6.

According to NAR, total housing inventory was 1.15 million units heading into January, a 13.5% decrease from the previous month but a 16.2% increase from the same period one year earlier, for a 3.3-month supply at the current sales pace. Housing supply remains down compared to pre-pandemic levels, and the limited number of homes on the market continues to push sales prices higher nationwide, with the median existing-home price rising 6% year-over-year to \$404,400.
